

## After School Support Classes for International Students

**Northcross Intermediate School**

Individual Growth through Challenge and Learning

At Northcross we understand that the more support we can offer our International Students and their caregivers the easier it will be for them to settle into school life.

It's for this reason that we offer **FREE After School Support Classes for International Student only**. These classes are in addition to ESOL language support during school time. **Classes are held on Tuesday's and Thursdays from 3.15- 4.15.**
